CDVI
Security to Access

Datasheet

DGA - Self-contained keypad

Product Description

The DGA is a hardy surface mount keypad with self-contained electronics.

Ideal for combining with access control or video entry systems, this keypad has capacity for up to 100 user codes. Its compatibility with all CDVI locking devices gives you the flexibility to further optimize your security.

Its robust design and high resistance to vandalism make it suitable to secure both residential and industrial sites.
